

Completed Projects

Loss Event: Hurricane Damage

Repair and replacement

Scope of project:

- ★ 70% damage
- ★ Full replacement of fasteners
- ★ Full installation of a .032-inch Aluminum standing seam roof system
- ★ Sealed the top side with a slow curing silicone
- ★ Roof panels were fabricated on site and hoisted to the roof with cranes
- ★ Doubled the amount of vertical supports and added 65% more purlins to give additional anchor points
- ★ Purchased over 65 camper trailers and leased enough land to set them all up for sustainable housing for the crew
- ★ Supplied a full-time chef to prepare 400 meals per day for the crew
- ★ Completion time: 3 months.
